

Your personalized doctor discussion guide

The following information summarizes your current carcinoid syndrome diarrhea (CSD) symptoms, experiences, and feelings:

How many bowel movements (BMs) are you having per day?

0-2 3-5 6-8 9+

Please select if any of the following breakthrough symptoms apply to you: (check all that apply)

Loose BMs Increasing or frequent BMs Nighttime BMs Urgency to use the bathroom
 Abdominal pain or cramping Not applicable

How do CSD symptoms affect your daily life? (check all that apply)

I have accidents I have canceled plans I have avoided plans I have changed plans
 I have left events No affect Other

What does your current CSD treatment include? (check all that apply)

Short-acting SSA injections Long-acting SSA injections
 Antidiarrheal medications (prescription and/or over-the-counter) Other

When did you start your current treatment plan?

In the last 6 months 6-12 months ago 13 months to 2 years ago More than 2 years ago

Indication

XERMELO is a prescription pill, used along with somatostatin analog (SSA) therapy, for carcinoid syndrome diarrhea in adults who are not adequately controlled by SSA therapy.

Important Safety Information

- Do not take XERMELO if you have a history of hypersensitivity to telotristat or any of the ingredients in XERMELO.
- XERMELO may cause constipation which can be serious. You should stop taking XERMELO if severe constipation or severe, persistent, or worsening abdominal pain develops. Talk to your doctor if you have these symptoms.
- The most common side effects of XERMELO include nausea, headache, increase in liver enzymes, depression, flatulence, decreased appetite, swelling of your hands and feet, fever, abdominal pain, and constipation.
- Talk to your doctor about all medications you are taking as some may interact with XERMELO.
- XERMELO is not recommended if you have moderate or severe liver impairment.

You are encouraged to report negative side effects of prescription drugs to the FDA. To report SUSPECTED ADVERSE REACTIONS, contact the FDA at 1-800-FDA-1088 or www.FDA.gov/medwatch. You may also contact TerSera Therapeutics at 1-844-334-4035 or medicalinformation@tersera.com.
